Georgia Library Association

The Georgia Library Association is an umbrella organization encompassing members from public, school, academic, and special libraries, including professional and paraprofessional staff, public library trustees and friends of libraries. GLA was founded in 1897 for the purpose of promoting public library funding, establishing a library training program in the state, and setting up a state commission to oversee the library interests of the state. Its current focus lies along similar lines, with attention to legislative, financial, technological, and library training issues and advocacy for libraries of all types being among its chief concerns. With membership approaching 1000, GLA makes a significant impression on legislators, particularly since it represents all of the library interests in Georgia. The Georgia Library Day and the state's participation in the ALA National Library Legislation Day are major activities of the association. GLA has memberships in, is affiliated with, or sponsors the following professional organizations: the American Library Association (ALA); American Association of School Librarians (AASL); Association of College and Research Libraries (ACRL); Council of Library Administration and Management Association (LAMA); Public Library Association (PLA); Freedom to Read Foundation (FTRF); Southeastern Library Association (SELA); and Georgia Association of Media Assistants (GAMA). It can draw upon considerable resources to facilitate workshops and other training programs for librarians, media specialists, and paraprofessionals. GLA awards two scholarships annually to students enrolled in a program leading to a Master's Degree in library/information science. Noteworthy achievements of members and "lay" persons in the advancement of and advocacy for Georgia's libraries are recognized through the association's awards program. In over 100 years of existence, GLA has been instrumental in the growth of Georgia's libraries, and will continue to throughout the twenty-first century. (http://gla.georgialibraries.org)

Georgia Library Media Association, Inc.

The Georgia Library Media Association dates back to 1930 when the Department of School Libraries of the Georgia Education Association was formed. In 1975 the Georgia Educational Media Association and the Georgia Library Media Department merged as GLMD, and in 1988 the organization separated from the GAE and reorganized as the current GLMA. It became incorporated in 1993, and continues as the largest professional organization serving school library media professionals in Georgia. Opening General Session

Our Libraries, Our Communities: Technology Evolution, Change and Success
Michael Porter
Thursday 10:00 a.m-10:50 a.m.
Ballrooms E & F

As gadgets and portable computing help drive a societal shift in how we related with information, and each other, it is important to look what the library is, where we came from and where we want to go so that we can continue to secure the critical role of libraries in or cultures.

When it comes to the future of our libraries, content, community, mission, connections and evolution are the keys to success. Between new varieties of hardware and software, emerging access options and ubiquitous computing, strange things are definitely afoot in Libraryland as the ways we interact with information, and each other, shift. All this requires a most thoughtful and brave period of library evolution. But worry not, for we can do it! And in the process libraries become more relevant, useful force good in society than ever before possible.

Michael is a librarian, presenter, author, practical technology fan, and PEZ collector. He has 20 years of experience working in Libraryland and has presented hundreds of times to library staff around the world. In 2009 he was selected as a Library Journal "Mover & Shaker" and in 2010 was elected to the American Library Association's governing Council Board. He currently works at WebJunction.org in Seattle, Washington as their Communications Manager.

But when one of her shindigs gets broken up by the cops, Mary lands in the slammer and is forced to enlist the help of her librarian godmother, Judy.
